Fax Servers	1,63	1,67	+ 4%
Host Access	1,18	1,26	- 4%
<b>Total</b>	<b>6,42</b>	<b>5,92</b>	<b>+ 13%</b>

\*Includes DeliveryWare, Esker on Demand and FlyDoc

\*\* Growth expressed with no currency effect: 2007 exchange rates applied to 2006 figures

#### **FlyDoc growth remain very strong: +126% in the 1st quarter**

The new version of FlyDoc, launched in November 2006 continues to experience a large success in front of large and small businesses, resulting in sales growth of 126% during the 1<sup>st</sup> quarter. In addition the document process automation solutions "on demand" offered by Esker also continue to expand rapidly and have generated more than 200 new contracts with over 7 million pages processed during the quarter.

#### **DeliveryWare shows rapid expansion**

Esker DeliveryWare document process automation solutions produced excellent results during the 1<sup>st</sup> quarter attaining 19% growth. This performance was realized despite a strong precedent set in the 1<sup>st</sup> quarter of 2006. With a large number of solid opportunities, Esker expects continued expansion of these solutions through the remainder of the year.

#### **Host Access and Fax hold their position**

The company's traditional activities have also realized strong performances. Host Access activity is currently on an upswing due to the launch of the new version of Windows (Vista) pushing companies to migrate their Host Access products. This has allowed the Host Access product line to exceed company expectations with a decrease in sales of only 4%.

#### **Outlook**

The solid achievements of the 1<sup>st</sup> quarter confirm the development outlook pursued by the company for 2007. These achievements should continue to produce strong results over the remainder of the year.

**About Esker**

Esker is a recognized leader in helping organizations eliminate manual processes, gain process visibility and control, and reduce the use of paper by automating the flow of documents into, within and out of the organization. With patented document delivery automation software and hosted document delivery services, Esker offers a total solution to automate every phase and every type of business information exchange. Customers achieve significant and immediate operational efficiencies, cost savings and measurable ROI in as little as three to six months. Founded in 1985, Esker operates globally with more than 80,000 customers and millions of licensed users worldwide. The company employs over 240 staff with 25% of its workforce dedicated directly to product development.

Esker is traded on Euronext, the French Stock Exchange (Le Nouveau Marché/ISIN: FR0000035818).
